Profile

Proficient in Full Stack Web Development, I've created immersive interfaces using HTML, CSS, JavaScript, and ReactJS with Styled-Components and TypeScript. Employing NodeJS and Express, I've built responsive apps, integrating NoSQL (MongoDB) and SQL (PostgreSQL) databases. This skill mix allows me to seamlessly fuse design and functionality.

Professional Experience

2023/01 – present	**IT Technician** *Prefeitura Municipal de Caraguatatuba* Opportunity to apply and expand my knowledge in agile resolution of technological problems, playing a key role in supporting IT infrastructure and contributing to the efficient operation of municipal systems.
2016/01 – present	**Search Engine Evaluator** *Appen* In my role as a Search Engine Evaluator at Appen, I played a crucial part in assessing and refining the performance of search engine algorithms. This involved evaluating search results, providing insightful feedback, and ensuring search engines deliver accurate and relevant information to users. Through this position, I honed my analytical skills and contributed to enhancing the overall user experience in online search.
2019/02 – 2022/02	**Web Content Editor** *Mobiuspace* Analyse, classify and add subtitles to music videos and social medial content

Education

2021/06 – 2023/12	**Analysis and Systems Development** *Uninter*
